Melrose Manor is located on the north side of Mt. Aetna Road about one mile east of Edgewood Drive in Washington County, Maryland. It is situated on a rise of ground and faces south.

The structure is a two-story, five-bay brick dwelling with white trim. A modern enclosed porch is attached to the east gable end.

The walls are set on low ashlar stone foundations. Common bond brick work is displayed at all elevations. Decorative work associated with the exterior of the house includes flat arches over the window and door openings.

The windows are placed with concern for symmetrical appearance at the front and side elevations. Two-over-two pane Victorian period double-hung sashes are held within narrow frames with molded trim. The openings are flanked by paneled shutters at the first story and louvered shutters at the second floor level.

The main entrance is located in the center bay of the facade. The doorway is rather elaborate in appearance with a broad transom and sidelights surrounding double doors. The jambs are finished with decorative panels. Other entrances are much plainer in appearance.

A one-bay Victorian period entrance porch with a low hipped roof is located at the main entrance. It is supported with double square posts and finished with decorative latticework trim. A two-story porch extends along the length of the north or rear elevation of the house. The lower level of the porch has been enclosed with narrow board siding. The upper portion is supported by square posts with brackets.

The roof is covered with slate and extends for several inches beyond the end walls of the house. Coved cornice molding finishes the eaves boxing. Double brick chimneys rise from inside each gable end.

Behind the house are numerous well maintained outbuildings of brick. A short distance east of the house is a two-story, three-bay brick tenant house with brick dentil cornice work. The house displays common bond brick work at all elevations and appears to be contemporary with the main house.

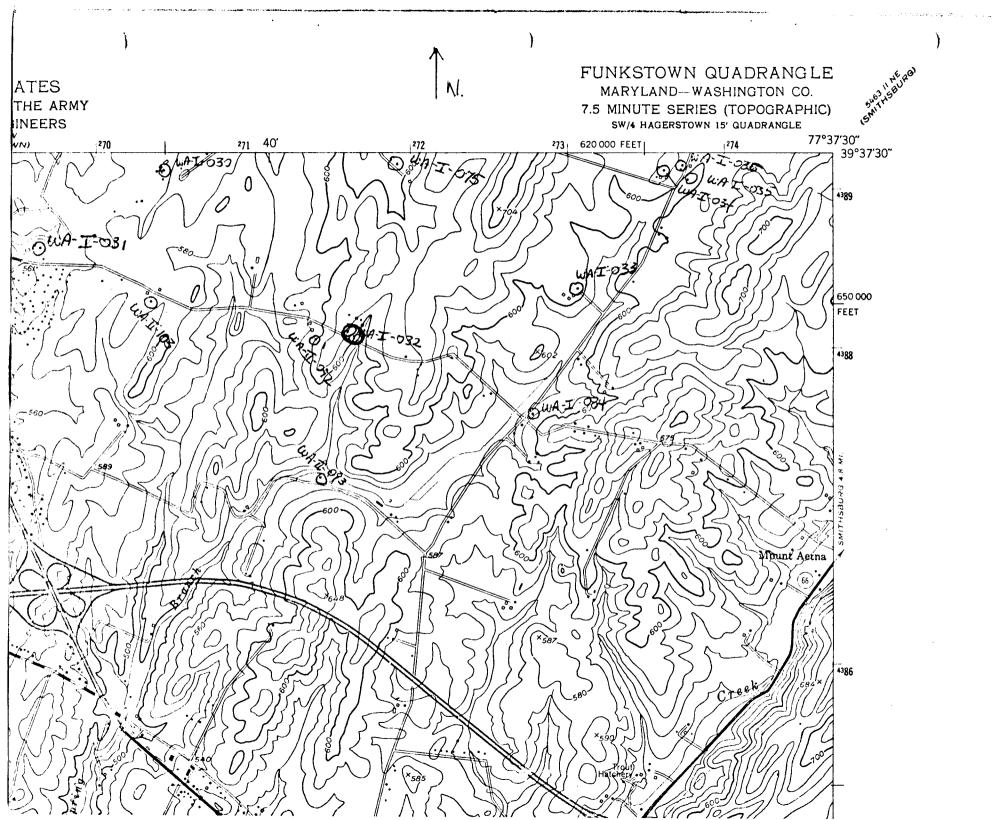

All buildings are in excellent condition and stand on a tract containing 100 acres.
